PROFESSIONAL SUMMARY

Results-driven Senior Data Analyst with 2+ years of experience transforming complex datasets into actionable business insights across retail, customer analytics, and sales performance domains. Proficient in SQL, Power BI, and Microsoft Excel, with strong expertise in data visualization, storytelling, and building scalable KPI frameworks to support executive decision-making.

Skilled in statistical analysis and customer segmentation, with a proven track record of uncovering growth opportunities, optimizing pricing strategies, and improving retention outcomes. Passionate about leveraging data to help organizations drive efficiency, maximize revenue, and make smarter, data-informed decisions.

TECHNICAL SKILLS

Data Analysis Tools	*Microsoft Excel (Advanced), Power BI,*
Programming Languages	*Python (Pandas, NumPy, Matplotlib, Seaborn), DAX*
Databases & SQL	*MySQL, Microsoft SQL Server*
Visualization Tools	*Power BI, Looker Studio, Matplotlib*
Dashboard Design Tools	*Figma, PowerPoint, Excel*

DATA ANALYTICS PROJECTS

Bank Customer Churn Prediction Model

Tools: Power BI, SQL Server, Figma

- Led advanced customer analytics initiatives to uncover churn drivers, optimize retention strategy, and support long-term customer value growth across key demographic and product segments.
- *Key insight:* Led end-to-end churn analytics across 10,000+ customer records, identifying key lifecycle risk drivers and attrition patterns while designing segmentation frameworks to uncover high-risk cohorts such as early-tenure and low product adoption customers.

Commercial Performance Dashboard

Tools: Excel, DAX, SQL Server

- Led commercial performance analytics to evaluate revenue drivers, pricing effectiveness, and channel profitability across multi-category retail operations.
- *Key insight: Directed the development of enterprise-level sales dashboards analyzing 8,800+ transactions, establishing KPI frameworks around operating margin (39%), pricing strategy, and profit contribution while uncovering key drivers such as Men's Street Footwear and high-margin online channels (40%).*

Revenue Growth & Customer Experience Optimization Initiative

Tools: Power BI, Figma, SQL Server

- Led merchandise analytics initiatives focused on revenue maximization, cost efficiency, and customer satisfaction improvement across diverse product portfolios.

- *Key insight: Delivered strategic performance visibility across $856K+ revenue and 12K+ unit sales by designing SKU frameworks, conducting customer segmentation, and identifying key revenue drivers, logistics cost exposure ($108K), and inventory inefficiencies to guide assortment, positioning, and margin optimization strategies.*

EDUCATION

B.Sc. Computer Science

Elizade University, Ondo State , Nigeria • 2022 – Till Date

Relevant coursework: *Statistics, Database Management, Research Methods*

CERTIFICATIONS

- **Accenture Data Analytics Professional Certificate** — Accenture, 2024
- **Microsoft Certified: Power BI Data Analyst Associate**— Microsoft, 2024

TOOLS & TECHNOLOGIES

Power BI • Tableau • Excel (Advanced) • SQL Server • Python • Figma • Git • Google Analytics • Microsoft Azure • Canva (for data storytelling)
